Teacher instruction:
Ask learners to make a ladder from three straws. They need two long sides.
The rungs must be cut into equal lengths. Learners glue their ladder to the side of the Land Rover.
They need to draw items on the roof-carrier that begin with the letter 'l'.
This is an auditory discrimination and measurement exercise.

Make a ladder and pack the luggage

Teacher instruction:
Ask learners to colour in the lion. They glue a piece of felt onto the nose.
Let them trace the 'l' shape. Repeat for the capital 'L'.
Let learners slow-speak each picture to identify the initial sound and then circle all the objects that begin with 'l'.
This is an auditory discrimination exercise.

The lion has a long nose
