

Vorm en kleur

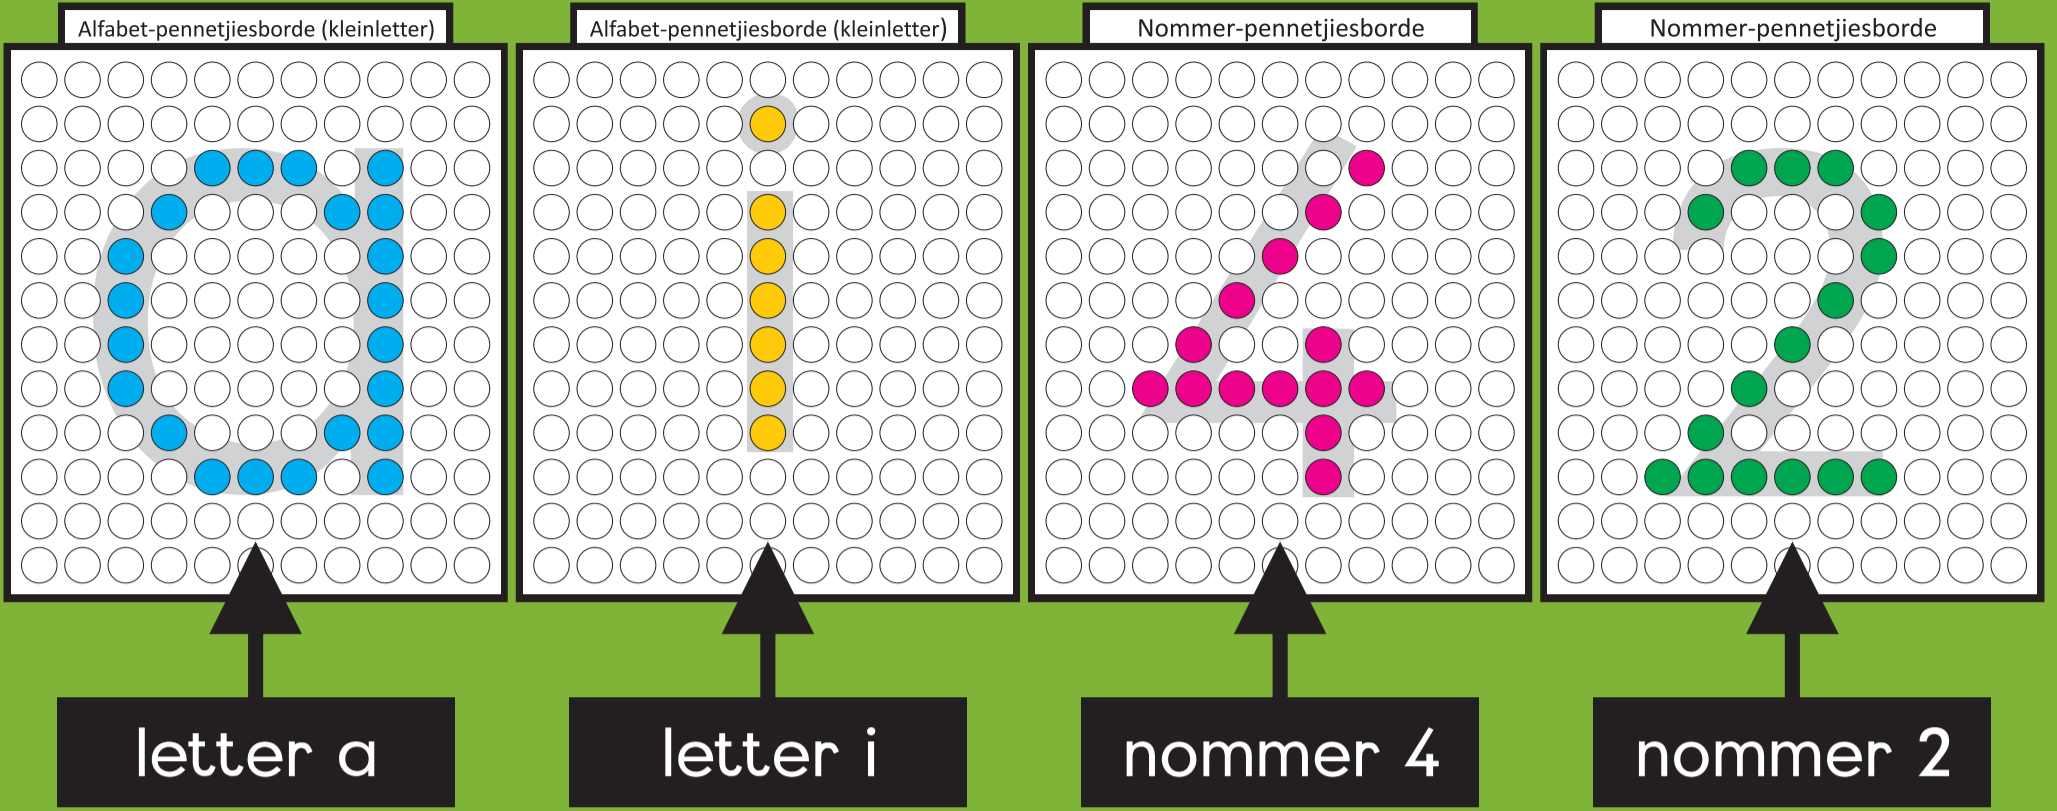

rangskikking van pennetjiesborde

Teacher Notes

Learners repeat the pattern of linked dots using pegs and a pegboard.
Show the learner where to start by having them count the number of dots from a corner on the left.
This exercise is excellent for visual memory, visual integration and figure-grounding skills.

The image displays four 10x10 pegboard grids used for visual discrimination exercises. Each grid is titled "Patrone en rangskikking".

- Top-left grid:** Shows a pattern of red dots forming a large 'X' shape. A label "kleurrangskikking" with an arrow points to the bottom row of colored dots (blue, red, yellow, green, blue, red, yellow, green, blue). A label "vorm" with an arrow points to the 'X' shape.
- Top-right grid:** Shows a pattern of yellow dots forming a large 'X' shape. A label "vorm" with an arrow points to the 'X' shape. A label "kleurrangskikking" with an arrow points to the bottom row of colored dots (red, red, red, red, red).
- Bottom-left grid:** Shows a pattern of colored dots forming a large 'X' shape. A label "kleurrangskikking" with an arrow points to the bottom row of colored dots (magenta, blue, green, magenta, blue, green, magenta, blue, green).
- Bottom-right grid:** Shows a pattern of colored dots forming a large 'X' shape. A label "kleurrangskikking" with an arrow points to the bottom row of colored dots (blue, blue, magenta, magenta, blue, blue).
