SAVE OUR WILDLIFE

INTRODUCTION

- People of all ages and cultures should develop an awareness of and commitment to nature.
- We should contribute to making informed decisions and constructive actions concerning wildlife and our environment.
- We should help to provide displaced animals with a purpose and a permanent home.

WHAT YOU CAN DO

1. Learn more about our animals.
2. Read books and magazines.
3. Watch nature programmes on TV.
4. Share what you know about the environment.
5. Recycle, pick up trash and conserve water.
6. Express your concerns about wildlife and the environment.
7. Write constructive (but

respectful) letters to big businesses.

8. DO NOT buy products made from wild animals!
9. DO NOT buy live animals that have been taken from the wild.
10. Plant a tree. Trees provide shelter and food to animals.
