1. Introduction

The library module in SA-SAMS was developed to ensure that Librarians or Library Administrators at all schools can administer the day to day running of a school library facility. This document serves to assist Librarians on how to use the library module. In more detail the document will explain how to:

- create and manage a school item catalogue
- manage library users
- issue, return and renew library items
- manage fines
- manage reservations
- manage history records for library users
- search items and view reports

ISSUE RESTRICTIONS

Maximum number of extensions per item
Maximum number of reservations per item
Maximum number of reservations per user

Print Settings Save Settings Close

Figure 15.2: Library System Settings page

This section provides an interface to capture general loan details for learners and staff (both educators and general staff members). The library administrator must set-up the number of loan days, maximum loan items, fine amount and fine interval on the general settings page to get started with the Library module.

- Short Loans:** Shortest periods an item can be loaned out to Library users (short loan periods are determined by the school library loan policies).
- Normal Loans:** Schools must determine an average number of days a user can loan an item out. The period must then be captured as normal loans on the library system.
- Number of days for extensions:** Maximum days allowed for a loan extension.
- Long Loans:** Extended period (of normal loans) for item loans. It is normally during school holidays that long loans apply.
- Fine Amount:** The amount of money which a user will be entitled to pay in case of exceeding the number of days allocated for a loan.
- Fine Interval:** A number of days after which a fine will be repeated if an item which is due for return remains unreturned.

7. **Issue Restrictions:** Captures all restrictions attached to the issue of an item. An item will not be issued if all restriction values are not met. There are 3 restrictions for issuing an item on this library system:
- **Number of extensions per item :** Number of times a loan can be extended for an item
 - **Number of reservations per item:** Number of times an item can be reserved, e.g. one book can be reserved by 2 learners at a time.
 - **Number of reservations per user:** Number of items a user can reserve, e.g. one user can reserve 2 items at one time.
8. When all values have been captured, click **save settings** button and then **done** button to return to the main menu.

Note: If above settings are not captured then fine amounts, return dates, user and item restrictions will not apply.

9. To print settings, click on **print settings** button.

4. Maintain Library Items

4.1 Search for Library Items

1. To maintain the library items, click on **maintain library items** button

Figure 15.3: Search Criteria

2. To search for an item on the catalogue a user must at least enter one criteria

Accession No	Classification	Main Author	Title	Ref	Restricted	Loan Type
2009-1	826	smith, ad smith	mr		☐	N
2009-2	591.9	seioso, s	mr		☐	N
2009-3	796.39	smith, ad smith	mrs		☐	N
2009-4	796.39	smith, ad smith	mrs		☐	N

Figure 15.4: Search and Maintain Item page

3. User can search for an item by a using combination of the following search criterions :

- **Accession number:** A unique number that is allocated to an item when it is added to the catalogue. The number consists of the year of capture stroke (-) a number that is incremented per new item. e.g. 2009-1 for the first item that was captured in the year 2009. Accession numbers are automatically allocated by the system.
- **Category:** An item category can be a magazine, book, etc
- **Sub category:** A sub category can represent a sports, family, woman, etc.magazine within a magazine category
- **Classification no:** Subjects are classified according to their area of study. A classifications number is allocated to all subjects of study. The system will automatically allocate a classification number to each item when it is added to the catalogue.
- **Author name:** The author's first name.
- **Author surname:** the author's last name
- **Title:** the item name.
- **Restricted items, Short loan items and Items removed**
- **Subject search :** user can search by subject (i.e. Bonds)

Figure 15.5: Subject Search

4. Click **Show All** button to view all the available items in the catalogue.

- Figure 6 (above) will appear showing more details of the item.
- Capture all necessary fields and click on **save**.
- Click on **done** to exit the library item maintenance page.

5. Maintain Languages Function

The screenshot shows a software window titled "Maintain Languages". It features a search bar at the top with a "Search" button and an "All" button. Below the search bar is a large, empty table area. At the bottom of the window, there is a "Language:" input field and five action buttons: "Add", "Update", "Delete", "Print Grid", and "Done".

Figure 15.7: Maintain languages page

1. In maintain languages section, user can **add, update or delete** a language.
2. Type the language you wish to maintain on the textbox provided and select the functions to be performed (**add, update or delete**).
3. User can search for available languages by using the search function provided. To search for available languages, type a phrase of the language on the top textbox and click on **search**.
4. Use **print grid** button to print the list of available languages.
5. Click **all** button to list all the available languages.
6. Click **done** button to exit the language window.

Figure 15.11: Maintain subject classification codes

1. In maintain subject codes section, user can **add**, **update** or **delete** a subject code.
2. Type or select the subject and classification number for the subject you wish to maintain on the textbox provided and select the function to be performed (**add update or delete**).
3. User can search for available subject code by using the search function provided. To search for available subject codes, type a phrase of the subject code and click on **search** button.
4. Click **all subject code** to list all the available subject code.
5. Use **print grid** button to print the list of available subject code.
6. Click **done** button to exit the maintain subject classification codes page.

10. Maintain Categories

Figure 15.12: Maintain stock categories page

1. In maintain subject categories, user can **add, update or delete** categories and sub-categories.
2. Type or select the category or/and subcategory and for the category or/and subcategory you wish to maintain on the textbox provided and select the function to be performed (**add update or delete**).
3. Select show all categories to view a full list of available categories.
4. Use **filter by** drop list to select a specific category of items.
5. Use **expand all categories** to view sub-categories
6. Use **collapse all categories** to view only main categories
7. Click on **done** to exit maintain stock category page.

11. Issue System

Figure 15.13: Issue system page

1. To issue an item to a learner, click on the **learner radio** button and select the learner from **select member if member numbers unknown** drop down list. Type the learner number on **member number** text box if you know the number.

2. Type **book accession number** on the space provided.

Note : The return due date is calculated according to short loan, long loan and normal loan settings as they appear under **general settings**.

If **validation** (see 11.1) is successful, click **issue item** to loan the item out to user.

11.1 User and Item Validation

Figure15.13.1: Validation

The validation button is used to checks for:

- Learner existence
- The grade and class of the learner.
- Availability of Item accession number requested in the catalogue
- Learner Identity Photograph

Note: Validation does not apply for educator and staff users and the validate button will not be active in that case. Issue date is automatically extracted from the system date but it can also be manually captured.
