

Capturing of Learner Disability on SA-SAMS as per 25.0.0

Learner disabilities for reporting and/or support are captured on SA-SAMS as follows:

1. Disabilities as per PAM and for reporting
2. Additional and more specific disabilities used for support and concessions as per SIAS process. The disabilities identified to assist with support e.g. hemiplegic instead of physical disabled. The disabilities also linked to the domains as described in the SIAS documentation. The related NSC code is also included on the table.

Capturing:

1. Select LSEN in Mainstream (Ordinary School) to activate. Special Schools is a default setting.
2. Select disability as per PAM
3. Click on Add SNE Details and identify /select the Primary Disability
4. Then tick to add additional disabilities that align with NSC registration (List is below)

Update Learner Details (3.1.1)

ERNA BOTHA : Acc Number : 15672
