ASSESSMENT GUIDELINES FOR FOUNDATION PHASE GRADES R - 3
LETTER FROM THE DIRECTOR-GENERAL

Dear Teacher

Assessment is necessary to make the decisions that influence a learner’s progress. It should therefore be viewed as a fundamental practice that happens naturally in the teaching and learning process. This then means that learners in Grades R-3 should be assessed continuously to monitor their progress and make daily instructional decisions.

To determine a learner’s instructional needs, assessment must provide information in two key areas. Assessment data should be collected to help you, the teacher, to analyse the output of your instruction – “what is it that my learner knows, can show and do.” Assessment practices should also allow you, the teacher, to evaluate your teaching methods - “how do I plan my teaching in order to improve the performance and meet the diverse needs of my learners.”

The Foundation Phase Assessment Guidelines have been developed to support the implementation of the National Policy on Assessment and Qualifications for Schools in the General Education and Training Band. It provides practical ideas in the form of exemplars, tables and diagrams and emphasizes how to:

• integrate planning and assessment in a systematic way;
• use different assessment forms and tools that are appropriate for regular continuous assessment;
• keep assessment records;
• report on assessment for learning and assessment of learning.

The Foundation Phase Assessment Guidelines show how outcomes based assessment practices can be used in the classroom but it does not pretend to be a definitive work on the topic. It is intended to provide a starting point from which teachers can begin their journey of understanding and applying sound principles of assessment. Finally, if it encourages you and your colleagues within your school and district to reflect on and debate your assessment practices, I would be delighted as teaching and especially assessment, is enhanced when teachers engage in professional discussions.

May the Foundation Phase Assessment Guidelines support you in the invaluable work you are undertaking in our schools.

Best Wishes

Mr Duncan Hindle
Director General

INTRODUCTION

This document provides guidelines for assessment in the Foundation Phase, Grades R-3, and gives effect to the National Curriculum Statement (NCS). It guides teachers on how to plan and manage assessment, keep records and report on learner achievement in the three Learning Programmes defined for the Foundation Phase:

- Literacy,
- Numeracy,
- Life Skills.

This document should be read in conjunction with the following policies that have been published in terms of the National Education Policy Act 27 of 1996:

  - Overview
  - Languages Learning Area Statement
  - Mathematics Learning Area Statement
  - Life Orientation Learning Area Statement
  - Arts Culture Learning Area Statement
  - Natural Science Learning Area Statement
  - Economic and Management Sciences Learning Area Statement
  - Social Sciences Learning Area Statement
  - Technology Learning Area Statement
- National Policy on Assessment and Qualification for Schools in the General Education and Training (GET) Band (12 February 2007)
- Education White Paper 5 on Early Childhood Development (2001)
- Language in Education Policy (1997)

UNIT 1 ASSESSMENT IN THE NATIONAL CURRICULUM STATEMENT

INTRODUCTION:

Assessment is an integral part of teaching and learning and should be included at all levels of planning. The assessment standards in each learning area define the minimum requirements for achieving the learning outcome at a specific grade. The teaching and learning activities that we plan should enable learners to demonstrate achievement of a certain assessment standard, or a cluster of assessment standards. We can assess in many different ways; it depends on what we want to assess, and what we want to achieve with the assessment.
In this Unit you will get to know:

1. How do the assessment standards inform the teaching and learning process?
2. The principles and purpose of assessment.
3. The types of assessment.
4. Outcomes based assessment
5. Language and assessment

1.1 HOW DO ASSESSMENT STANDARDS INFORM THE TEACHING AND LEARNING PROCESS?

Assessment standards reflect the skills, knowledge and values (SKVs) required to achieve the Learning Outcomes. The definition of an assessment standard is provided in the Overview Statement (p.14) of the National Curriculum Statement (NCS). It states that:

“Assessment standards describe the level at which learners should demonstrate their achievement of the learning outcome(s) and the ways (depth and breadth) of demonstrating their achievement. They are grade specific and show how conceptual progression will occur in the Learning Area. They embody the skills, knowledge and values required to achieve the learning outcomes.”

There are three main purposes for assessment standards:
• to help teachers to know when learners have achieved a learning outcome;
• to show the minimum levels which learners should achieve in a specific grade;
• to show learners’ level of achievement and progress in a specific grade.

1.2 THE PRINCIPLES OF ASSESSMENT

Assessment should:
• be authentic, continuous, multi-dimensional, varied and balanced;
• take into account the diverse needs of learners and the context, and therefore use various assessment strategies;
• be an integral part of the teaching and learning process, and should help us to evaluate the teaching and learning;
• be accurate, objective, valid, fair, manageable and time efficient;
• be based on information from several contexts, take many forms and include a range of competencies and uses;
• be bias-free and sensitive to gender, race, cultural background, and abilities;
• be criterion-referenced as far as possible;
• be transparent so that learners and teachers have a clear understanding of what the expectations are for any assessment task;

1.3 THE PURPOSES OF ASSESSMENT

The main purpose of assessing learners should be to enhance individual growth and development and to monitor the progress of learners. Good assessment helps teachers to know whether learners are performing according to their full potential and are making progress towards the level of achievement required for progression.
1.4 TYPES, DESCRIPTIONS AND USES OF ASSESSMENT

Different types of assessment are practised in schools. The Table below gives descriptions and uses of the types of assessment that can be used in Foundation Phase.

Table 1: Types, descriptions and uses of assessments

<table>
<thead>
<tr>
<th>Type of Assessment</th>
<th>Description and uses</th>
</tr>
</thead>
<tbody>
<tr>
<td>Baseline Assessment</td>
<td>Baseline assessment is usually used at the beginning of a phase, grade or learning experience to establish what learners already know, what they can do, or what they value. For learners with disabilities, baseline assessment can be done in consultation with the Institution-level support team.</td>
</tr>
<tr>
<td>Formative Assessment</td>
<td>Formative assessment is developmental. It is used by teachers to provide feedback to the learner and track whether the learner has progressed (or not). It helps day-to-day teaching and learning, and may suggest ways in which learning activities can be changed to suit diverse learners’ needs. Formative assessment is also known as “assessment for learning”. Importantly, this type of assessment involves both teacher and learner in a process of sustained reflection and self-assessment.</td>
</tr>
<tr>
<td>Diagnostic Assessment</td>
<td>Diagnostic assessment is a specific type of formative assessment. It may lead to some form of intervention, or remedial action, or revision programme. It can help to identify strengths and weaknesses of a learner, or of a teaching methodology, or barriers to learning. The results can help to plan individual support for learners who have problems.</td>
</tr>
<tr>
<td>Summative Assessment</td>
<td>Summative assessment gives an overall picture of the achievements of a learner at a given time, for example, at the end of a term or year. Summative assessment is like a “snapshot” of a learner’s progress at a particular point in time (and formative assessment is like a “video” of a learner’s progress during the process). Summative assessment is referred to as “assessment of learning”.</td>
</tr>
</tbody>
</table>

1.5 OUTCOMES BASED ASSESSMENT (OBA)

The National Curriculum Statement (NCS) is based on the philosophy and methodology of Outcomes Based Education (OBE). Thus assessment in the GET Band needs to conform to the principles of Outcomes Based Assessment (OBA).
### Table 2: Outcomes Based Assessment principles in classroom practice

<table>
<thead>

<tbody>
<tr>
<td>Design down</td>
<td>When planning assessment, teachers should:</td>
</tr>
<tr>
<td></td>
<td>• identify the relevant learning outcomes and assessment standards;</td>
</tr>
<tr>
<td></td>
<td>• identify the skills, knowledge and values that need to be assessed;</td>
</tr>
<tr>
<td></td>
<td>• choose an appropriate assessment strategy;</td>
</tr>
<tr>
<td></td>
<td>• plan steps for differentiation to accommodate learners at different levels.</td>
</tr>
<tr>
<td>Clarity of focus</td>
<td>Teachers should ensure that learners understand:</td>
</tr>
<tr>
<td></td>
<td>• the criteria against which they are to be assessed, and</td>
</tr>
<tr>
<td></td>
<td>• the evidence of learning they are expected to demonstrate.</td>
</tr>
<tr>
<td>High expectations</td>
<td>Teachers should assist and support learners to reach their full potential. They should measure progress against the previous achievements of the learner, and not against those of other learners.</td>
</tr>
<tr>
<td>Expanded opportunities</td>
<td>Teachers should find multiple ways of exposing learners to opportunities that will enable them to demonstrate their full potential. We expect all learners to succeed, but not necessarily at the same time and in the same way.</td>
</tr>
<tr>
<td></td>
<td>The teacher needs to maximise opportunities for every learner by challenging them to achieve and improve as individuals, but not to compete against other learners. Non-competition impacts on classroom methodology and classroom management by:</td>
</tr>
<tr>
<td></td>
<td>• taking into account different learning styles and multiple intelligences;</td>
</tr>
<tr>
<td></td>
<td>• presenting and enriching the curriculum in different ways.</td>
</tr>
</tbody>
</table>

### 1.6 CHARACTERISTICS OF OUTCOMES BASED ASSESSMENT (OBA)

Assessment is integral to teaching and learning. An OBE approach to teaching and learning requires Outcomes Based Assessment (OBA). This assessment has implications for what the teacher does in the classroom.

### Table 3: Characteristics of OBA

<table>
<thead>
<tr>
<th>CHARACTERISTICS OF OBA</th>
<th>IMPLICATIONS FOR CLASSROOM PRACTICE</th>
</tr>
</thead>
<tbody>
<tr>
<td>OBA is integrated throughout the teaching and learning process</td>
<td>• Assessment should be viewed as an integral part of each and every lesson.</td>
</tr>
<tr>
<td></td>
<td>• Planning for Assessment should be shown in the Learning Programme, Work Schedule and Lesson Plan.</td>
</tr>
<tr>
<td>OBA is participative, democratic and transparent</td>
<td>• Teacher’s assessments should sometimes be complemented by learners assessing themselves, using self, peer and group assessments.</td>
</tr>
<tr>
<td></td>
<td>• The teacher is expected to inform learners of what is expected of them before the assessment.</td>
</tr>
<tr>
<td>OBA is continuous – it is ongoing, takes place over a period of time, and supports growth and development.</td>
<td>• Continuous assessment allows the teacher to assess the learner’s performance formally and informally throughout the year.</td>
</tr>
<tr>
<td></td>
<td>• This allows for formative assessments, regular interventions, and support where needed.</td>
</tr>
<tr>
<td></td>
<td>• Continuous assessment uses a range of methods of assessment that cater for different learners’ needs and styles of learning.</td>
</tr>
</tbody>
</table>
OBA encourages reflection and regular feedback, with timely interventions

- Teachers need to provide learners with regular feedback on their progress.
- Ongoing feedback helps learners to know their strengths and weaknesses.
- Learners should be offered expanded opportunities to improve their performance.

1.7 LANGUAGE IN ASSESSMENT

Learners’ Home Languages should be used for learning and teaching wherever possible. This is particularly important in the Foundation Phase, when children should learn to read and write in their Home Language. When learners have to make a transition from their home language to an additional language, it is necessary to plan assessment very carefully.

The language in which recording and reporting is done should be in accordance with the Language of Learning and Teaching (LoLT) of the school as stated in the Language in Education Policy (1997).

It is a barrier for learners if they lack confidence to express themselves in the language in which the learning, teaching and assessment is done. Learning in an additional language can be a barrier to learning for those learners whose Home Language is different to the LoLT of the school. Learners whose Home Language is different to the LoLT of the school should be supported by being assessed on the Assessment Standards of the First Additional Language (FAL). As they progress they should be assessed on the Home Language level.

Teachers should be sensitive to language barriers which impact on the learner’s performance and respond by taking early steps to address these barriers.

UNIT 2 ASSESSMENT IN THE FOUNDATION PHASE

INTRODUCTION:

The nature of assessment in the Foundation Phase is guided by policy requirements and the developmental needs of the young learners. Like all teaching and learning, assessment needs to be inclusive in its approach to assessing learners’ performance. Inclusivity is a central principle of the NCS (White Paper 6), so it is critical that alternative forms of assessment are planned around the different needs and learning styles displayed by learners.

In this Unit you will find out about:

1. The different needs and learning styles of learners
2. Continuous Assessment (CASS) in Foundation Phase

2.1 ASSESSMENT AND THE NEEDS OF LEARNERS

In the Foundation Phase, the teacher should pay particular attention to the developmental needs of learners when planning for assessment.

</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>• Some learners are “visual” – they need to see pictures, illustrations, charts.</td>
</tr>
<tr>
<td></td>
<td>• Other learners are “aural” – they like to listen, hear, and discuss.</td>
</tr>

<td>• And “tactile” or “kinaesthetic” learners like to touch, they enjoy hands-on experiences, they like to do things, and enjoy physical activities.</td>

</thead>
</table>

2.2 CONTINUOUS ASSESSMENT (CASS) IN FOUNDATION PHASE

In Foundation Phase (Grades R-3), Continuous Assessment (CASS) makes up 100% of learner achievement. Continuous Assessment is a continuous, planned process of identifying, gathering, and interpreting the performance of learners. The four main steps in the assessment process are:

1. Generating and collecting evidence of learner achievement by developing and implementing various assessment tasks (formal and informal) related to the Learning Outcomes and Assessment Standards;
2. Evaluating this evidence against the learning outcomes, indicating the strengths and needs of learners;
3. Recording the findings of this evaluation (formally or informally);
4. Using this information to support learners through –
   o expanded opportunities;
   o intervention strategies;
   o regular feedback.

Continuous assessment comprises both informal and formal assessment. So learning is assessed regularly, but not all of the assessment findings need to be recorded. Only formal planned assessment tasks should be recorded.
The characteristics of CASS can be found in Chapter 5 of all Learning Area Statements.

- It takes place over a period of time and is ongoing.
- It supports the growth and development of learners.
- It provides feedback from learning and teaching.
- It allows for integrated assessment.
- It caters for a variety of learner needs.
- It allows for summative assessment.

**Informal assessment**

Informal assessment happens by observing oral, practical and written activities that the learner does independently, or in a pair, or in a group. Lesson planning should incorporate such informal assessment tasks and activities. The teacher observes how the learners do their tasks, what they are struggling with, and how learners work together in a group or independently. Informal daily assessment tasks are not formally recorded unless the teacher wishes to do so.

**Formal assessment**

Formal assessment provides teachers with a systematic way of assessing and evaluating the learner’s progress. Formal assessment tasks need to be carefully planned, recorded, and reported for in all three Learning Programmes (Literacy, Numeracy, Life Skills).

Teachers should choose appropriate and relevant forms of assessment which suit the different learning styles and ability levels of all learners. The form(s) of assessment should also be grade and age-appropriate.

### 2.3 FORMS OF ASSESSMENT THAT ARE APPROPRIATE FOR FOUNDATION PHASE:

| **Observations** | Teachers constantly observe learners informally to assess their understanding and progress. Teachers observe learners closely as they engage in individual, pair and group activities and listen to their conversations and discussions. Observations are recorded in the observation book or sheets. |
| **Written/Recorded activities** | Activities that require learners to present anything in a written format should be planned in such a way that the learner’s performance (written work) is reflected clearly when assessed against the assessment standard(s) for the activity. |
### Performance based activities

This type of activity requires learners to demonstrate their knowledge, skills and values by creating, producing or demonstrating something. The criteria for the task should be clearly spelled out to the learners before hand. Such tasks could include:

- Oral activities eg role-play, recitals, interviews
- Practical activities eg demonstrations in which learners demonstrate physical and movement skills eg. games
- Presentations eg drawings, paintings, constructions etc.
- Individual or group projects
- Investigations

### Tests in Grade 3

Learners should be introduced to tests by Grade 3. Tests should be carefully planned and used initially as informal assessment tasks. Learners should be given adequate guidance and support to engage with the test format.

INTRODUCTION:
Teachers plan for assessment at all three planning levels, that is: (1) at the level of the Learning Programme, (2) Work Schedule and (3) individual Lesson Plans. So assessment is planned at the same time as the teaching and learning activities are planned.

Diagram 3: How to plan for assessment at the 3 levels of planning

In this Unit you will find out:
1. How to plan for assessment at the three levels of planning?
2. What is a Programme of Assessment?
3. What is an Assessment task?

3.1 ON THE LEARNING PROGRAMME LEVEL
In the Learning Programme, schools give an indication of resources and time required for assessment in each phase. Teachers stipulate what knowledge, skills and values the learners are expected to have. Thus, teachers need to:
• Mention all the possible forms of assessment they are likely to use in determining the achievement of the Learning Outcomes. When doing so, teachers take the Assessment Standards into consideration;
• Mention the resources they are likely to need;
• Take the context, core knowledge and concepts into consideration;
• Indicate the time that will be needed for each assessment activity.
Annexure A gives exemplars (“good examples”) of Learning Programmes for Literacy (Home Language and First Additional Language), Numeracy, and Life Skills.
3.2 ON THE WORK SCHEDULE LEVEL

When Foundation Phase teachers of a particular grade meet to plan their work schedules, they also need to plan the formal assessment tasks that the learners will be assessed on during the year. The planning of formal assessment tasks for each learning Programme results in the development of a Programme of Assessment.

When planning a Work Schedule, the following issues are important:
- The guidance given by the Learning Outcomes and Assessment Standards as to what skills, knowledge and values should be assessed.
- The level, as stipulated by the Assessment Standards, at which the Learning Outcome should be assessed.
- Which assessment strategies or different assessment forms are to be used?
- The resources that will be used.
- How to plan for the diverse needs of the learners.

In the Work Schedule, the assessment task is based on the Learning Outcomes and Assessment Standards of the backbone Learning Area and the other learning areas that have been integrated into each Learning Programme.

Annexures B to E give Exemplars of Work Schedules for Literacy (Home Language and First Additional Languages), Numeracy and Life Skills Grades R-3.

3.3 PROGRAMME OF ASSESSMENT

A Programme of Assessment is, “a year-long grade specific formal plan of assessment for a Learning Programme or Learning Area or Subject.” Therefore, it is linked to the Work Schedule.

In the Foundation Phase context it would mean that a Programme of Assessment has to be planned for each Learning Programme describing the formal assessment tasks that will be assessed per term across the year.

Assessment Task

- Usually made up 2 or more interrelated activities.
- Includes one or more forms of assessment.
- Can include one or more pieces of learner evidence.
- Can be administered over different periods of time.

Assessment activities

- Infused with teaching and learning activities
- Linked to Learning Outcomes and assessment standards.
- Detailed description in the Lesson plan
- Include different forms of assessment
  - Observation
  - Oral
  - Practical
  - Recordings
- Include different ways of collecting evidence
  - Observation book
  - Checklist
  - Rubrics
  - Learner’s class work books
The Exemplar Work schedules in Annexures B to E give Exemplars of Work Schedules with: Built-in Programme of Assessment, for Literacy (Home Language and First Additional Languages), Numeracy and Life Skills Grades R-3.

3.4 ON THE LESSON PLAN LEVEL

At this level of planning, the class teacher is responsible for planning and implementing the assessment task. The lesson plan should give details of the assessment task, assessment form and method.

In a Lesson Plan, the teacher should:

• Indicate how the Learning Outcomes will be assessed;
• Consider the level at which the Learning Outcomes will be assessed using the Assessment Standards;
• Also consider the context, availability of resources, and the diverse needs of learners;
• Give a detailed description of the various assessment strategies or different forms of assessment, and how these will be integrated with teaching and learning.

Annexures F to I give Exemplars of Literacy (Home Language and First Additional Language), Numeracy and Life Skills Lesson Plans.

UNIT 4 HOW TO INTEGRATE PLANNING AND ASSESSMENT WITHIN A LEARNING PROGRAMME

INTRODUCTION:
The National Policy on Assessment and Qualifications for Schools in the GET Band (Paragraph 36 page 12) states: “Assessment of learner performance in Grades R-3 in the three Learning Programmes should mainly focus on the Learning Outcomes and the Assessment Standards defined in the Languages, Mathematics and Life Orientation Learning Areas only.”

This statement clarifies two important features of assessment in Foundation Phase:
1. that assessment of learner performance in Grades R-3 needs to take place in all three Learning Programmes: Literacy, Numeracy, and Life Skills;
2. that assessment tasks should be informed mainly by the backbone or core learning areas of each Learning Programme which are:
   - Languages
   - Mathematics
   - Life Orientation

In this Unit you will get know:
1. The core or backbone learning area of each Learning Programme.
2. How to integrate planning and assessment in a Learning Programme?
3. How to unpack an assessment task?
4. How to apply different forms of assessment?

4.1 INTEGRATION ACROSS THE OTHER LEARNING AREAS

The policy further elaborates in Paragraph 36, page 12 that:
“The learner’s level of competence in Natural Sciences, Technology, Social Sciences, Economic and Management Sciences, and Arts and Culture Learning Areas should be planned for, taught and assessed in an integrated manner within the three learning programmes offered in this phase.”

These five Learning Areas should be integrated into the Learning programmes where integration with the backbone or core learning area happens naturally. Therefore in Foundation Phase (Grades R-3) all 8 Learning Areas will be planned for, taught and assessed in an integrated manner across all three Learning Programmes.

4.2 EXEMPLAR: INTEGRATED PLANNING AND ASSESSMENT IN NUMERACY

This Exemplar has been drawn from Annexure E3: Numeracy Work Schedule Grade 3 (Weeks 9 & 10). This Exemplar shows how the different learning areas can be planned for, taught and assessed in an integrated manner within the Numeracy Learning Programme.

It shows how the core learning area, Mathematics has been integrated across the other learning areas; Arts and Culture, Technology and Languages within the Numeracy Learning Programme.

UNIT 5    RECORDING IN FOUNDATION PHASE

INTRODUCTION:
In Foundation Phase, the recording and reporting of learner performance takes place against the assessment task and not the Learning Outcomes. Recording and reporting takes place across the three Learning Programmes: Literacy, Numeracy, and Life Skills. In the case of the Literacy Learning Programme, each language offered should be recorded and reported separately. For example, the teacher should record and report separately on Home language – English and First Additional Language – isiXhosa, etc.

In this Unit you will get know :

1. What are the national codes and descriptors for recording and reporting?
2. What is the recording process?
3. What information should be recorded?
4. How to record information?

5.1 THE NATIONAL CODES AND DESCRIPTORS
The National Policy on Assessment and Qualifications for Schools in the GET Band requires us to use the following national codes and descriptors to record and report on learner’s progress. Comments should be used to support the code and descriptor used to describe the learner’s progress.

Table 8: Codes and descriptors for recording and reporting in grades R-3

</tbody>

5.2 RECORD KEEPING
Records of teacher assessments and planning as well as evidence of learner performance must be recorded systematically.

5.2.1 WHAT LEARNER EVIDENCE SHOULD BE KEPT?
Learner evidence can include class workbooks, worksheets, posters, projects, etc. For items such as practical demonstrations, or presentations and models, it is important that teachers should record comments in the observation book or assessment record sheets.

This collection of evidence, together with other assessment tools such as checklists, observation sheets, etc, will enable the teacher to track and report systematically to the relevant stakeholders on the learner’s progress and achievement throughout the year.

The collection of learner evidence should be accessible to the relevant stakeholders (School Management Team, parents, guardians, Education Support Services).

5.2.2 WHAT RECORDS MUST THE TEACHER KEEP?
The National Policy on Assessment and Qualifications for Schools in the General Education and Training Band, Page 17: Paragraph 50 states that: “All teachers are expected to keep a portfolio ….”

The portfolio may be a file, folder or box or any other storage system that the school has agreed on. Items that should be kept in the teacher’s portfolio are:

- Three levels of Planning (Learning Programme, Work Schedule and Lesson Plans);
- Programme of assessment;
- Assessment recording sheets;
- Assessment Tools (checklists, observation sheets, rubrics, etc).
5.2.3 WHAT INFORMATION SHOULD APPEAR ON THE ASSESSMENT RECORD SHEET?

Teachers’ records of learner progress should be kept either electronically (on a computer) or in files, books or folders or any other form the school has agreed on. These record sheets should have the following information.

- Learning Programme
- Grade and class
- Learners’ names
- Date of assessment task
- The form of assessment and short description of the assessment task
- The final rating that has been awarded to the learner
- Comments for support purposes when and where appropriate.

The final or overall rating which is awarded to a learner in a specific learning programme should give a holistic picture of the learner’s achievement in that particular learning programme. The final rating is based on all the formal assessment tasks that the learner has been assessed on in a particular learning programme in a term. Other relevant factors (like the development of the learner over time) should also be considered.

UNIT 6 REPORTING IN FOUNDATION PHASE: GRADES R-3

INTRODUCTION:
When assessing learners, teachers and the school need to be accountable to learners, parents, the education system and the wider community. Being accountable means that schools are required to give feedback to parents on their children’s progress and performance using a formal reporting instrument such as a report card.

The National Policy on Assessment and Qualifications for Schools in the General Education and Training Band states that “formal report cards should be sent to parents and guardians once a term.”

In addition to the report cards, schools are expected to use other reporting mechanisms such as:
- parents’ meetings
- school visitation days
- parent-teacher conferences
- phone calls
- letters
- school newsletters
Reporting to parents and guardians should be done on a regular basis so that parents/guardians will remain involved and participate in their children’s education.

In this Unit you will get to know:
1. What is the Reporting process?
2. What information should be recorded in a report?

Diagram 12: Reporting Process

- **WHO DOES THE REPORTING?**
  - Class teacher supported by the Principal

- **WHAT SHOULD APPEAR ON THE REPORT?**
  - Learner’s and school details.

- **HOW DO WE REPORT ON LEARNERS?**
  - Use the national codes, descriptors and comments to describe learner’s progress.

- **WHAT DO WE REPORT ON?**
  - Learner’s progress in Literacy, Numeracy and Life Skills.

- **HOW DO WE REPORT?**
  - Report card, interviews, letters, newsletters etc.

- **WHEN DO WE REPORT?**
  - Every term and when there is a need to inform the parent about the learner’s progress.
6.1 WHAT SHOULD BE RECORDED IN A FOUNDATION PHASE REPORT?
The Foundation Phase Report should have the following information:
• Provide feedback on the learner’s progress in Literacy, Numeracy and Life Skills.
• The national codes and descriptors should be used to report on learner achievement in the report card.
• Comments should be used to describe the learner’s performance in each Learning Programmes.
• The Personal details of the learner (Name of Learner, Grade of Learner, Date of birth of the Learner, Learner’s attendance profile) and the details of the school should appear on the Report.

The exemplar below illustrates some of the information that should be recorded in a report card.

UNIT 7  NOTES ON ANNEXURES: PLANNING FOR ASSESSMENT IN GRADES R-3

The Annexures in the following pages show “exemplars” (good examples) of Learning Programmes, Work Schedules and Lesson Plans for Grades R-3, for the three learning programmes:

- Literacy-Home and First Additional Languages,
- Numeracy and
- Life Skills

The Learning Programmes and Work Schedules have been designed for the First Term only.

In this Unit you will get to know:
1. How do you integrate planning and assessment at the Learning Programme Level for Grades R-3?
2. How do you integrate planning and assessment at the Work Schedule Level?
3. How do you integrate planning and assessment at the Lesson Plan level?
5. The link between the Work Schedule and the Programme of Assessment
EXEMPLAR LEARNING PROGRAMMES
ANNEXURE A: EXEMPLARS OF LEARNING PROGRAMMES, GRADE R - 3

The exemplars of Learning Programmes focus on the backbone learning area outcomes and assessment standards that will be covered in Term 1. The content focus referred to in the Learning Programmes has been taken out directly from the assessment standards of the backbone learning area.

The types of assessment referred to are baseline, formative and summative.

1. Schools may choose to conduct a baseline test in the first two or three weeks of school.
2. Formative assessment is assessment for learning. It refers to the ongoing informal and formal assessment tasks that are planned to track the learner’s progress in all Learning Programmes.
3. Summative assessment is assessment of learning and refers to tasks that are planned to assess a learner’s progress over a period of time. These tasks may be planned at the completion of a number of assessment standards relating to one or more learning outcomes.

EXEMPLAR WORK SCHEDULES
The Work Schedules have been designed for Term 1 only and are directly linked to the Learning programmes in Annexure A above. The 10 weeks per term have been grouped in two week cycles. So you will find that the learning outcomes and assessment standards of the backbone learning area that has been reflected in the Learning Programme has been spread across the two week cycles in the term.

Integration across other learning areas is included in each of the two week cycles. For example, in the Grade R Work Schedule Literacy: Home Languages in Weeks 1 & 2, Languages: Learning Outcomes 1 and 2 are integrated with Arts and Culture: Learning Outcome 1 and Life Orientation: Learning Outcome 1.

The Programme of Assessment has been built into the Work Schedule. It gives an idea of the formal assessment tasks that should be assessed for the term. Teachers need to identify the number of activities that make up each of the formal assessment tasks. Each assessment activity that forms part of a formal assessment task should be based on the assessment standards which can be assessed in more than one lesson. Hence a variety of forms of assessment should be used in each activity to give all learners expanded opportunities.

The formal assessment tasks have been spread across the 2 week cycle in the Work Schedule. For example in the Grade R Work Schedule Literacy: Home Languages, Task 1: Perceptual Development Skills will be done in Weeks 3 and 4 and will cover the Languages and other integrated learning area(s), Learning Outcomes and Assessment Standards that have been planned for in Weeks 3 & 4.

**BUILT-IN PROGRAMME OF ASSESSMENT: FORMAL ASSESSMENT TASKS FOR THE TERM**

**TASK 1** assessed in Weeks 7&8  Based on activities related to:

- Personal Development Skills
- Social Development Skills
- Physical Development skills
- Health Promotion skills

(Should cover Life Orientation and integrated learning areas LOs and ASs in Weeks 7 & 8)
EXEMPLAR LESSON PLANS
ANNEXURES F TO I: LESSON PLANS GRADES R-3

The lesson plans are directly linked to the Work Schedules (Annexures B-E) for each Learning Programme and grade. The Exemplars show how to draw up Daily Lesson Plans, based on the time allocated per Learning Programme per day. They cover only some of the Learning Outcomes and Assessment Standards in the two week cycle plans in the Work Schedule. More than one lesson plan is needed to cover all the Learning Outcomes and Assessment Standards. The Exemplars are detailed because they show how to integrate planning and assessment.

The Exemplar Lesson Plans show how to design an assessment activity (form, method and tool of assessment). They show only one or two assessment activities of the formal assessment task. The formal assessment task should be made up of more than one assessment activity, and it should planned for, in more than one lesson during the two week cycle.

The assessment activity is based on the Learning Outcomes and Assessment Standards of the backbone and the integrated Learning Area(s). The skills that are assessed in the formal assessment task are directly linked to the backbone learning area.

The assessment activity should cover both formal and informal assessment. The teacher should constantly change methods to manage diversity. All learners need not be assessed at the same time. Teachers can assess a group of learners or individual learners. It is suggested that at least 15 to 20 minutes be spent on whole class activities, and that at least 20 minutes should be spent per group lesson.

While a group of learners are engaged in the group lesson with the teacher, the rest of the class can be doing independent activities. The independent activities should be tasks that have already been taught and the learners are familiar with them. These lesson plans are planned for three group lessons a day. We encourage teachers to use teaching models that best suit their classroom contexts. These lesson plans are generic and should be adapted to suit different school and classroom contexts.

### Exemplar Daily Lesson Plan Numeracy, Grade R

Based on Weeks 7& 8 of the Grade R Numeric Work Schedule.

**Per Day:** 1 hour 30 minutes per day  
**Per Week:** 7 Hours 30 Min.

**Theme:** My body

### MATHEMATICS

**Learning Outcomes:**  
**LO1**  
AS1  
Counts at least 10 objects reliably.

**AS 2**  
Says and uses number names in familiar contexts.

**AS 3**  
Knows number names and symbols for 1 to 10.

**Integration:**

**Life Orientation:** LO4 AS 2 Uses body parts to locomote, rotate, elevate, etc.

**Arts & Culture:**  
**Music:** LO1 AS 1 Sings and moves creatively to children’s rhymes.

**Languages (Home):**  
LO4 AS 1 Experiments with writing: creates and uses drawings.

**Learning Activities and Assessment – Whole class activity**

- Sing and demonstrate physical movements for “Heads and Shoulders”.
- Count eyes, hands, fingers, toes etc and identify correct number card to match 2 hands, 5 fingers etc.
- Trace fingers/ toes on both hands/feet on large sheets of blank paper.

**Resources:** Number cards (1-10), blank paper, crayons.

**Formal Assessment Task 3: Counting and Number recognition skills (See Annexure B3)**

**Assessment Activity 1: (Focus Skills Mathematics)**

**Forms of Assessment**

**Oral:** Assess learner’s ability to count out different body parts

**Practical:** Assess learner’s ability to recognise number names, values and symbols 1,2,5,10

**Informal Assessment**

**Observation:** Observe learner’s body movements in singing and counting activities, hand-eye co-ordination in the tracing activity.

**Recording:** Assess learner’s drawings in the tracing activity. Teacher can stick labels such as “I did my best etc

**Assessment Method:** Teacher

**Assessment Tool:** Observation sheet/Book

Based on Weeks 7 & 8 of the Grade R Life Skills Work Schedule.

**Per Day:** 1 hour 10 minutes per day

**Theme:** My body

**Per Week:** 5 Hours 50 Min.

### LIFE ORIENTATION

**LO3 AS 2**
Describes what own body can do.

**LO4 AS 2**
Explores different ways to locomote, rotate, elevate and balance.

### INTEGRATION

**ARTS AND CULTURE: DANCE LO1 AS 1**

Through play co-ordinates simple gross and fine motor movements.

### Learning Activities and Assessment

**Warm up Activities** (5 minutes) Run in open spaces, jumping and hopping exercises

**Group Activities** Divide class in 4 groups and allow each group to spend 10-15 minutes at each station.

- Station 1: Skipping activity
- Station 2: Ball activity
- Station 3: Hoop activity
- Station 4: Balancing activity

**Resources:** balls, hoops, skipping ropes, bean bags

### FORMAL ASSESSMENT TASK 1

**ACTIVITY 1: Personal and Physical Development Skills**

**FORM OF ASSESSMENT**

**Observation:** Level of participation and engagement in physical play.

**Practical Demonstration:** Body movements, handling of apparatus and muscular control.

**Assessment Method:** Teacher

**Assessment Tool:** Observation Book and Checklist

### Resources:
- balls, hoops, bean bags, benches, mats, relay batons, small bats, etc.

### Learning Activities and Assessment

#### Warm up activities (10 mins):
- Walk briskly in single file/run/march to specific spots on ground.

#### Group Activities
- Divide class in 4 groups and allow each group to spend 15 minutes at each station.
  - **Station 1**: Obstacle activity (crawl/jump over apparatus)
  - **Station 2**: Ball skills (throwing, bouncing, catching, kicking)
  - **Station 3**: Bat and ball games
  - **Station 4**: Balancing activity e.g. walk with beanbag on head.

### FORMAL ASSESSMENT TASK 1

#### ACTIVITY 1: Physical Development Skills

#### LANGUAGES LEARNING OUTCOMES

**LO3**

AS 1 Uses visual cues to make meaning.

AS 2 Makes meaning of written text.

AS 3 Reads texts alone and uses a variety of strategies to make meaning.

AS 4 Develops phonic awareness-vowel digraphs

**LO4 AS 1**

Uses pre-writing strategies to initiate writing.

### Learning and Teaching Activities

#### Whole class activities

View and discuss short DVD on Recycling of waste material (paper, garden refuse etc).

#### Group Lesson Activities:

**Activity 1** Read and discuss newspaper clipping on Recycling of waste material.

**Activity 2** Read graded readers/storybooks, focus on fluency and understanding.

**Activity 3** Brainstorm ideas, discuss the content for a class poster on "Recycling".

#### Independent Activities

**Activity 1** Word puzzle : vowel digraphs "ou"

**Activity 2** Flow diagram on : Recycling

**Activity 3** Work on class poster : Recycling

### RESOURCES

Charts/Posters, visuals – DVD recordings, newspaper article, dictionary, work sheets.

### FORMAL ASSESSMENT TASK 3 READING SKILLS (Focus Skills)

#### Activity 1

**Form of Assessment**

**Oral:** Level of understanding and responses to visual text –DVD, written text-newspaper article

**Practical:** Level of fluency and understanding of Texts in Activity 2

**Informal Assessment**

**Observation:** Awareness towards avoiding waste resources and participating in recycling projects.

**Recording:** Mark and provide feedback on Independent Activities

</tr>
</tbody>
</table>

#### Learning and Teaching Activities

**Whole class activities**
- Teacher reads a newspaper report on an environmental threat or disasters in the local area
- Learners say how they feel about the disaster/threat (possibly in own home language)
- Write key words/sentences on board/chart/word and sentence cards

**Independent Activity:**

**Activity 1**
- Read books from Reading corner/play word games

#### Formal Assessment Task 2 Reading Skills (Focus Skills)

**Activity 1**

**Form of Assessment**

**Oral and observation:** Observe learner’s understanding of text that has been read, participation and inputs.

**Informal Assessment**

**Observation:** Awareness level of pollution. Monitor independent activities.

**Assessment Method:** Teacher will assess.

**Assessment Tool:** Observation book/sheet.

#### Managing Diversity:

The newspaper text utilised can be simplified or shortened. Complex words can be explained or replaced so as to support learners who have not acquired the assessment standards of First Additional Language at the required level. The ASs can be unpacked to the level of Grade 2 or Grade 1, recording intervention strategies to be used and progress made against personal previous level of progress.

## MATHEMATICS LEARNING OUTCOMES

- **LO1 AS1** Describe ways in which the household or school can generate an income from waste materials or save money by recycling.

## Integration:
- Economic and Management Sciences

- **LO 1 AS 1**

## Learning and Teaching Activities

### Whole class activities:
- Read quantities on chip packets, cool drink cans/bottles etc 250 grams, 500 ml etc and match number value with correct number card.
- Mental calculations eg double 500g=________

### Group lessons
- **Group 1** -- Estimation skills How many chip packets/cans are there in the plastic bag? Count out and write correct number. Compare estimate with actual number (My estimate was more/less, more than/less than by--)
- **Group 2** -- Sort out chip packets/cool drink cans according to brand names (Lays, Simba, etc) Discuss which is more/less and by how many etc
- **Group 3** -- Calculations double 250 ml = _ml halve of 250 grams is______ etc.

### Independent Activities
- **Activity 1**: “Collect a can competition” Learners will design posters to advertise for the competition.
- **Activity 2**: Work card/chart Complete the missing number sequences 250, __, __, __, 500, __, __, __, 700.
- **Activity 3**: Work sheet: Write the missing number values Examples: \[ + \] + 2 = 212 500 + \[ + \] \[ + \] = 505

## RESOURCES:
- Collection of Empty cans, chip packets, work cards, charts, Learner’s numeracy books, number (flaird) cards

## FORMAL ASSESSMENT TASK 2: NUMBER CONCEPTS AND COMPUTATIONAL SKILLS’ Activity 1

### Form of Assessment
- Oral and Practical: Understand and respond to mental sums, understand concepts eg more/less, double/half, etc.
- Recording: Understand concepts and do calculations based on measurement

### Informal Assessment
- Observation and Recording: Sort, estimate and compare. Mark independent activities and provide feedback. Awareness generating income from waste materials

### Assessment Method: Teacher
- Assessment Tool: Recordings Numeracy class books, checklist, observation sheet

**LEARNING AND TEACHING ACTIVITIES**

**Whole Class Activities:**

- Children listen, sing, dance to song, example “Don’t kill the world”.
- Make a list of all the items of waste material that can be recycled in home/school environment.
- Create and display posters encouraging school community to dump newspapers, other scrap paper/glass bottles/cans in the recycling tanks at school.

**RESOURCES**

Waste material – classroom and school. Blank paper for posters and Roster, large plastic containers

**FORMAL ASSESSMENT TASK 1 HEALTH PROMOTION (Focus Skills)**

**Activity 1**

**Form of Assessment**

- **Observation and Oral**: Level of awareness and responses to recycling issues.
- **Informal Assessment**
  - **Observation and Practical**: Responses to music - body movements and facial expression.
  - **Recording**: Poster has a marketing appeal – visual and written text.
  - **Assessment Method**: Self assessment - learners are given a self assessment checklist to complete.
  - **Assessment Tool**: Self Assessment Checklist / Observation sheet.
EXEMPLARY ASSESSMENT TOOLS
UNIT 8  ANNEXURE J

ASSESSMENT TOOLS FOR RECORDING LEARNER ACHIEVEMENT

There are many different assessment tools that can be used to record learner achievement. The most commonly used ones are indicated in the Exemplars below.

In this Unit you will learn about the:
1. Different assessment tools that can be used in Foundation Phase. (Observation book and sheets, checklists and rubrics)

Exemplar J 1: Observation Book

An Observation Book can be used by the teacher to record brief notes on learner achievement and progress in informal and formal assessment tasks. Here is an example from an Observation Book: Grade 2.

Learner: Siyethemba

10 March – Independent reading: enthusiastic; brings books from home. Often helps in the library after school.
11 March – Managed her group very well during PE lesson.
12 March – Can verbalise and work out the answer to a work problem using concrete aids and drawings.
15 March – Guided reading – used title and illustrations to make predictions.
17 March – She chooses to read whenever possible, selects her own reading material. Borrows books from the library.
Observation Sheets can be used to record learner achievement and progress for both informal and informal assessment tasks. **Here is an example of a generic Observation Sheet for a Group Reading Lesson which can be adapted for Grades 1-3.**

<table>
<thead>
<tr>
<th>Learners</th>
<th>Fluency and speed</th>
<th>Word Recognition Skills</th>
<th>Comprehension Skills</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Albertina</td>
<td>Reads 40 words per minute</td>
<td>Uses phonic knowledge and contextual clues</td>
<td>Knows the plot and main ideas</td>
<td>Reading at instructional level</td>
</tr>
<tr>
<td>Grace</td>
<td>Reads 50 words per minute</td>
<td>Recognise common sight words. Uses contextual clues</td>
<td>Understands the main ideas in the story</td>
<td>Reading at independent level</td>
</tr>
<tr>
<td>Mandla</td>
<td>Reads 10 words per minute</td>
<td>Word by word reading. Hesitation, inadequate sight vocabulary</td>
<td>Cannot remember details. Uses illustrations to make meaning</td>
<td>Reading at frustrational level. Change to easier graded reader.</td>
</tr>
</tbody>
</table>

The following is an example of a generic Observation Sheet for a Numeracy Group Lesson which can be adapted for Grades R-3.

<td>Uses concrete aids and drawings to work out problem. Is able to verbalise solution.</td>
<td>Needs more practice and support in recording sums.</td>
</tr>
<tr>
<td>Grace</td>
<td>Can skip count in 2s and 5s from a given number up to 100.</td>

Exemplar J 3: Checklists

Checklists can be used to record learner achievement and progress for both informal and formal assessment tasks.

The following is an example of a checklist for speaking skills, which can be adapted for Grades R – 3.
